PROFESSIONAL SUMMARY

Software Developer with a Bachelor's Degree in Computer Science from Mackenzie Presbyterian University and currently pursuing a Postgraduate Program in Full Stack Development at FIAP. Hands-on experience with React.js, Next.js, Python, Django, Flask, REST APIs, PostgreSQL, and AWS Lambda. Experienced in Full-Stack development, process automation, dashboards, front-end/back-end integrations, and AI-powered solutions, including LLMs and RAG.

SKILLS

Front-end	JavaScript, TypeScript, React.js, Next.js, Svelte, HTML, CSS, CSS Modules, Bootstrap;
Back-end	Python, Django, Flask, Chalice, C#, .NET, Node.js, APIs RESTful, SQL, PostgreSQL, MySQL;
Cloud/DevOps	AWS, Google Cloud Platform (GCP), Azure, Docker, GitHub Actions, CI/CD, Git, GitHub;
AI & Data	LLM, RAG, Vertex AI, Applied Artificial Intelligence (AI), AI Principles;
Best Practices	Clean Code, SOLID, DDD, TDD, Design Patterns, Unit Testing;
Soft Skills	Agile Methodology, Fluent English, Communication, Organization, Teamwork.

PROFESSIONAL EXPERIENCE

20DASH - Full Stack Developer (02/2025 - 12/2025)

- Developed serverless microservices using AWS Lambda, Chalice Framework e Python to automate internal processes;
- Implemented RESTful APIs integrated with PostgreSQL for data storage, retrieval, and processing.
- Automated video and image generation workflows, reducing manual effort and improving operational efficiency;
- Developed web interfaces using React.js, Vite.js, and Material UI, applying component-based architecture and front-end/back-end integration;

MackLEAPS - Front-end Developer / Team leader on applied academic project (03/2023 - 11/2023)

- Led a team of 6 members in the front-end development of a web application for meteorological data visualization;
- Developed dynamic interfaces using React.js, JavaScript, HTML, and CSS;
- Implemented responsive layouts focused on UI/UX, achieving 75% user approval in usability testing;
- Supported team organization through Scrum and Kanban practices, prioritizing visual clarity and user experience.

SELECTED PROJECTS

Dental Clinic Website

Next.js | CSS Modules | JavaScript | Responsive Design | Swiper.js | Parsley.js
Responsive corporate website developed with Next.js to showcase dental services, clinic information, and patient contact, using reusable components and an interface optimized for multiple devices.
Website: clinicaodontologica.davidpessoa.com.br | GitHub: github.com/david-pessoa/clinica-odontologica

Post Management API

Node.js | TypeScript | Express | TypeORM | PostgreSQL | JWT | Docker
REST API for user registration, JWT-based authentication, and post management with role-based access control (RBAC), including CRUD operations, keyword search, and post view tracking. Developed using a layered architecture, OpenAPI/Swagger documentation, and a CI/CD pipeline.
GitHub: github.com/david-pessoa/Tech-Challenge-Fase-2

Code Pilot

React.js | IA | Chatbot | API integration
Web application for interacting with an AI assistant, featuring chatbot functionality, API integration, and conversational user experience.
GitHub: github.com/david-pessoa/code-pilot-frontend

EDUCATION

FIAP Postgraduate Program in Full Stack Development | 03/2026 - 01/2027
Universidade Presbiteriana Mackenzie Bachelor's Degree in Computer Science | 02/2022 - 12/2025

CERTIFICATIONS & LANGUAGES

Certifications: Applying AI Principles with Google Cloud; AI Skills; SantanderX Explorer; C#: Creating Your First Application; Academic Teaching Assistant Program. | Idioms: Native Portuguese; Fluent English.
